

SEARCH-LAB
SECURITY EVALUATION ANALYSIS
AND RESEARCH LABORATORY

SEARCH-LAB Ltd. confirms that the

MicroSigner

**fully meets all requirements
of the executed security analysis.**

The MicroSigner signing solution, containing a thin client and a transaction server created by Microsec Ltd. is clear of known weaknesses, missing controls and threats discovered by means of ethical hacking with the assumption that the websites being on the provider's whitelist are reliable and do not contain malicious code.

This assessment is based on Security Evaluation of the aforementioned components and the corresponding Review Report v1.00 issued on 12nd December, 2016 by SEARCH-LAB Ltd.

Budapest, 2016 december 15.

Zoltán Hornák
