Microsec binds packages to a 1-year loyalty period.

The time stamps included in the package cannot be carried over to the following month.

The e-Szignó mobile application only operates with remote key management services, not with card subscriptions.

A multi-functional certificate suitable for email authentication can be requested for the Silver and higher packages without an additional fee.

The validity period of multi-functional certificates suitable for email authentication is 824 days (-2 years 3 months).
